Small Pill. Small Dose. Small Price.

"Safe and Certain"

Is the testimony of Dr. George E. Waller, of Martinsville, Va., in reference to Ayer's Pills. Dr. J. T. Teller, of Chittenango, N. Y., says:—
"Ayer's Pills are lighly appreciated. They are perfect in form and coating, and their effects are all that the most careful physician could desire. They have supplemented all the pills formerly popular here, and I think it must be long before any other can be made that will at all compare with them. Those who buy Ayer's Pills got full value."
"I regard Ayer's Pills as one of the most reliable general remedles of our times. They have been in use in my family for various affections requiring a purgative medicine, and have given unvarying satisfaction. We have found them an excellent remedy for colds and light fevers."—W. H. Woodson, Fort Worth, Texas.

"I prescribe Ayer's Pills in my practice, and flut them excellent remedies in my practice, and flut them excellent.

Next month lawn grass seed may be sown for the spring crop of lawn grass. Spade the ground well and rake the seed in, but cover very lightly.

As soon as the sweet corn becomes too hard for family use the stalks should be cut down, as the fodder is then in the best possible condition for gtock.

In saying tomato seed select the largest, smoothest and ripest specimens and reject all that are not solid. By so doing they will improve in quality each season.

For roofs that are not very steep tarred paper is better than shingles, but shingles should be used in all cases where the roof is steep enough to allow the water to flow quickly.

The bush Lima bean has been tested this season. While it has the bush habit, and requires no poles, yet it lacks the quality of the large Lima. It is also small, and can be best used as a bean for soup.

The old horse is safer and better for the use of the younger members of the family than younger ones, but for gen-eral farm work a horse should be young and strong. During the summer, when the work is very heavy, the horses should be fed three times a day and given two hours' rest at noon. hours' rest at noon.

Bran is one of the best foods for cows that are expected to calve in a month or more. Bran abounds in phosphates, and will largely contribute to the growth of bone of the embryo calf. Many cases of abortion in cows arise from lack of a proper supply of the necessary food elements that support the dam and young.

When a great business house, of worldwide reputation for honesty, fair dealing
and financial responsibility, feels warranted in attaching its certificate of guarantee to its goods, such action furnishes
the best possible evidence that the products are believed to be just what they
are represented to be. Such confidence
on the part of manufacturers and vendors naturally begets confidence in purchasers, and hence it is that there has
grown to be, all over this great country,
such an unprecedented demand for, and
such implicit confidence in, that most

Advice to Mathers.

Advice to Mathers.

Are you disturbed at night and broken of your rest by a sick child suffering and crying with pain of outling teeth? If so, send at once and get a bottle of Mrs. Wisslow's Scottling Synther for Chilphas Terring. Its value is incalculable. It will relieve the poor little sufferer immediately. Depend upon it mothers, there is no mistake about it. It cures dysentery and diarrhosa, regulates the stomach and bowels, cures wind colle, softens the gums, reduces inflammation, and gives tone and energy to the whole system. Mrs. Winslow's Scottling System of Children Terring is pleasant to the taste, and is the prescription of one of the oldest and best lemals nurses and physicians in the United States, and is for cale by all druggists throughout the world. Price 25 cents a bottle. Swyay.
